Canadian Mental Health to join TDMH Campus of Care

Tillsonburg Campus of Care will soon be welcoming another essential health care service to its list offered from the Tillsonburg District Memorial Hospital (TDMH) site. Canadian Mental Health Association - Oxford will be moving from Brock Street, in Tillsonburg, to join the Campus of Care in mid-September, 2016.

“We are excited to become part of the Tillsonburg Campus of Care,” said Mike McMahon, Executive Director, CMHA - Oxford. “The one-stop shopping concept for health care services is a great idea whose time has come. It will be good for our community to be able to access one of our eight mental health care professionals who will be working from the new location.”

No referral is required to access mental health services from CMHA – Oxford. Offices are open for consultation from 9 a.m. – 4:30 pm, weekdays. There are also 24/7 telephone lines open to help people in distress: 519-539-8342 or 1-877-339-8342.

“The Tillsonburg Campus of Care has been created to make access to specific health care services easier for patients and families,” says Crystal Houze, Integrated President and CEO, TDMH. “We are very pleased that CMHA – Oxford sees the benefit of being part of this group of services. They are a very valuable part of our community of health care providers.”
